

Please note: new office entrance

Diemen, February 2017

Dear all,

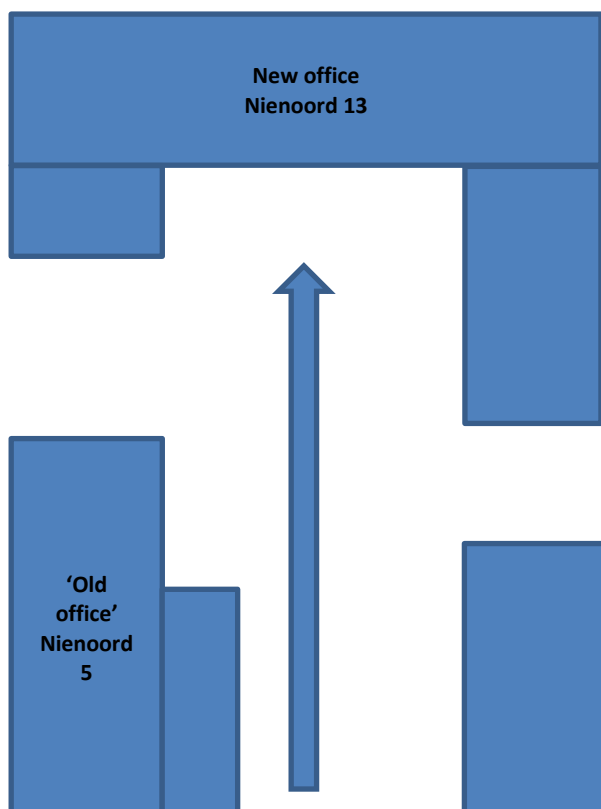

At the end of February we will move our offices from the current building, to the opposite building on the compound. The new building has more space and more rooms to work with our clients. The current office (number 5) will be used by another company, with the exception of the 2nd floor. A few group activities will remain on the 2nd floor of Nienoord 5.

From Monday the 27th of February onwards, you can report at the reception in the building opposite the current building, which is **Nienoord 13**, where a host or hostess will show you the way in the new building to your doctor or psychotherapist.

Nothing will change in your treatment programme.

In case you have any questions, please do not hesitate to ask the staff at the reception, or your doctor/psychotherapist.

Eddy Sas / Ruud Jongedijk,
Directors Centre '45 / Equator Foundation / Psychotrauma Diagnosis Centre

Nienoord 13
